**SUSTAINABLE WASTE MANAGEMENT:
HARNESSING THE POTENTIAL FOR BUSINESS AND TECHNOLOGY**

July 1-2, 2010
Federation House, Tansen Marg, New Delhi

A complete forum for waste management business across sectors

FICCI's annual forum on waste management held under the aegis of the FICCI Environment Conclave is stepping into its sixth year. For the past five years, the Conclave has brought together stakeholders engaged across the waste management spectrum under one platform. The Conclave has laid progressively more thrust on public private partnerships, the key to success of waste management initiatives for municipal and industrial sectors. The Conclave is a complete forum for waste management business across sectors and has emerged as an effective platform for Indian and global waste management stakeholders to create business linkages, gain knowledge and establish their presence in the evolving waste management market.

FEC 2010 will focus on the theme "Sustainable waste management: harnessing the potential for business and technology" with impetus on technology and business accelerated transformation for sustainable waste management. The Conclave will also have an exhibition on "Sustainable waste management" parallel on both days. Business partnerships and selection of appropriate technology is central to waste management projects. Business and industry have a key role to play in advancing the waste management agenda and hence, FEC 2010 would focus on integrating business partnerships, technology and industry players.

A platform for networking with all stakeholders in the waste management chain

Conclave Themes

- ❖ Policy and regulatory reforms for sustainable waste management
- ❖ State Government initiatives in municipal solid waste management in India
- ❖ Public - Private Partnership in waste management - guidelines & models
- ❖ Hazardous waste management in industrial clusters - opportunities & strategy
- ❖ Clean technologies for sustainable waste management
- ❖ E-waste management - opportunities & developments
- ❖ Financing waste management projects - what kind of projects are bankable
- ❖ GHG mitigation through waste management & role of carbon markets
- ❖ Identifying waste to energy opportunities in different industrial sectors
- ❖ Wastewater management – emerging trends in solids separation & treatment

Special Features

SUSTAINABLE WASTE MANAGEMENT EXHIBITION – a two day exhibition to showcase your initiatives

MASTER CLASSES FOR MUNICIPAL CORPORATIONS

- Financial modeling in Solid Waste Management
 - How to improve financial base, evolving role of private equity and developing a cost recovery model
- PPP: How to develop appropriate tender documents
 - Developing specific tender document for private sector participation in treatment and disposal and private sector participation in collection and temporary storage as separate packages

The municipal corporations have to register separately to participate in each of the master classes. For details of registration, please visit the FICCI Environment Conclave Website.

B2B MEET – Pre-organized meetings between waste management technology/ service providers and end-users like industry, urban local bodies, etc.
